---

### SUMMARY

I am a Fullstack Developer based in Bangalore, India. I have 5+ years of experience in writing scalable and maintainable web applications. I have strong expertise in frontend technologies such as HTML, CSS, ReactJS and TypeScript. I also have experience in working on the backend services using NodeJS and Golang with SQL and NoSQL databases. I also have hands-on experience working with Docker and Kubernetes. I am passionate about staying up-to-date with the latest front-end trends and technologies.

### EXPERIENCE

#### **Juni** - SENIOR SOFTWARE ENGINEER

SEPT 2022 - NOV 2022

- Implemented User On-boarding Flow in the website.
